THE RADAR FASHION

BY KATE TEMPLIN

FLIGHTS OF FANCY

Fall fashion has gone to the birds—the ostriches, peacocks and pheasants, that is. This season, pretty plumes ruffled runway looks from head (see Donna Karan's dramatic hat and Louis Vuitton's to-die-for necklace) to toe (Dior's super-chic stilettos), and everything in between, including skirts at Thakoon, tunic dresses at Catherine Malandrino and Nina Ricci's fantasy-esque evening gown. Looking for a less flighty option? Fendi's lizard-and-wool handbag features a festive, yet subtle dusting of orange ostrich feathers, and Geri's pave diamond and white gold ring is sure to stay firmly planted on your finger. **A**
